## **NIGHT FLIGHT CONCEPTS LAUNCHES WEBSITE TO ADVANCE NIGHT VISION GOGGLE SAFETY THROUGH EDUCATION**

*AMTC 2010, FT. Lauderdale, FL (October 11 2010)* — At this year's Air Medical Transport Conference, Night Flight Concepts, a premier provider of comprehensive night vision solutions, is pleased to unveil a new educational website, NVG Safety.com, to help organizations to implement new or existing night vision goggle (NVG) programs. The site was designed to create a single, centralized information source for educational information to help streamline program planning and encourage safe, effective NVG implementation.

Randy Rowles, VP Business Development for Night Flight Concepts explains, "As a provider of comprehensive night vision solutions, Night Flight Concepts is well aware of the variety of challenges faced when developing a Night Vision Goggle program. Most organizations find it very difficult, time-consuming and expensive to determine what is required to develop, implement and maintain NVG-enabled night operations. . After years of working with numerous civil and government organizations around the globe to assist them with this challenge, we decided to create online resource – NVGSafety.com - to address this need."

### **Information. Education. Results.**

NVGSafety.com provides a single, centralized information source for educational information to help understand what is required to safely implement NVGs to industry and government standard.

NVGSafety.com is an initiative of Night Flight Concepts, developed to contribute to industry by providing easy access to the education and resources needed to implement night vision goggles (NVGs). The site helps "advance night vision safety through education" by assisting organizations to build greater confidence and capability in their night vision operations.

As noted by Night Flight Concepts president, Adam Aldous: "our ultimate goal for NVGSafety.com is simple: to assist the industry by encouraging peer to peer training, education and awareness resulting in enhanced efficiency, effectiveness and safety in night operations and prevent the unnecessary, costly loss of lives and equipment associated with improper night vision goggle (NVG) use."

### **Supporting NVG Program Development**

NVGSafety.com will assist organizations with NVG program planning in several ways:

- **Save Time and Money.** Navigating and understanding all the information required for researching, planning and implementing night operations programs can be a time-consuming and expensive task. The NVGSafety.com site is a free educational online resource that provides a single, centralized information source for NVG educational information.

- **Implement NVGs Standard – with greater ease and confidence.** The NVGSafety.com site is an educational resource area created by NVG industry experts to help organizations worldwide to streamline NVG program planning. It provides access to critical information required to safely and successfully implement NVGs to industry and government standard.
- **A Single Source for NVG Safety.** NVGSafety.com is the only site of its kind dedicated to night vision goggle use. It is a comprehensive website designed to facilitate NVG adoption and operational sustainability to NVG operators providing easy access to critical information. The site is broken down into the key NVIS program areas to help organizations understand the government regulations and standards required for different elements of implementing an NVIS, Find the regulations, reference tools, articles and industry resources to help you get started
- **Leverage Industry Best Practises:** The site augments government and industry organization regulations and bulletins with educational information shared by leading providers of night vision goggle solutions to provide articles, experiences and recommendations to help encourage industry best practises.

As part of their commitment to industry education, Night Flight Concepts will work in partnership with government authorities, industry associations and partner corporations to update NVGSafety.com regularly, adding new features and functionality.
